
PEKIN FRIZZLED BANTAMS / COCHIN FRIZZLED BANTAMS

In recent years we have seen quite a variety of Frizzle Pekins on our shows. The main colour varieties shown were: Blacks, Whites, Blues, Buffs, Partridges, Lavenders, Mottleds, Cuckoos and Millefleurs. There is practically no reason why it couldn't be seen in all recognised varieties. The colour description of Pekins is applicable and they must be shown under the breed: Pekin Frizzle Bantam.

Plumage: Moderately long, broad and crisp, each feather curled towards the bird's head, and the frizzling as close and abundant as possible.

Note: For the rest the same Standard for Pekin Bantams applies, but the Scale of Points differs.

SCALE OF POINTS	
Colour	10
Type and carriage	15
Frizzle feathering	25
Fluff and cushion	10
Leg and foot feathering	10
Leg length	10
Size and weight	10
